

TRISHULAN INDUSTRIAL CONNECT

Platform Architecture, Features & Monetization Strategy

DOCUMENT OWNER: SURYA SAI ALLAMSETTY | TRISHULAN GROUPS

1. Platform Overview & Ecosystem Workflow

The Core Mission: Trishulan Industrial Connect operates as a centralized, high-performance B2B digital ecosystem. It is purpose-built to streamline large-scale import and export operations by seamlessly bridging raw material suppliers, machinery manufacturers, and verified global buyers within a single, secure environment.

How the Platform Works:

- **Role-Based Onboarding:** Users enter the platform by establishing distinct profiles—either as a **Buyer** (focused on procurement and RFQs) or a **Seller** (focused on distribution and inventory listing).
- **Data-Driven Market Research:** Before transacting, businesses leverage the platform's live *Market Prices* and comprehensive *Market Analyzer*. This allows users to track daily commodity fluctuations and time their bulk purchases optimally.
- **Precision Sourcing:** Buyers navigate the central Services Grid or use the universal search function to pinpoint specific raw materials or industrial spares. The system prioritizes listings from *Verified Sellers* to guarantee supply chain integrity.
- **Frictionless Negotiation (Free Chat):** A core differentiator of the platform is its universally unlocked Communication Suite. Buyers and sellers can instantly initiate text chats, share specialized RFQ documents, or conduct live video verifications without leaving the dashboard or paying premium communication fees.
- **End-to-End Execution:** Once terms are agreed upon, the platform provides immediate access to critical operational support, allowing users to book *Transport & Logistics*, secure *Packing Services*, and arrange *Labour Insurance* directly through integrated service providers.

2. Interface Breakdown & Feature Architecture

Main Navigation & Intelligent Search

- **Universal Search Bar:** A prominent, AI-assisted search field allowing rapid queries across millions of products, instantly categorizing results into Raw Materials, Machinery, or Spares.
- **Collapsible Mega-Menu:** A sleek, modern navigation structure that replaces traditional cluttered headers with an organized, categorized dropdown for advanced industrial sectors.

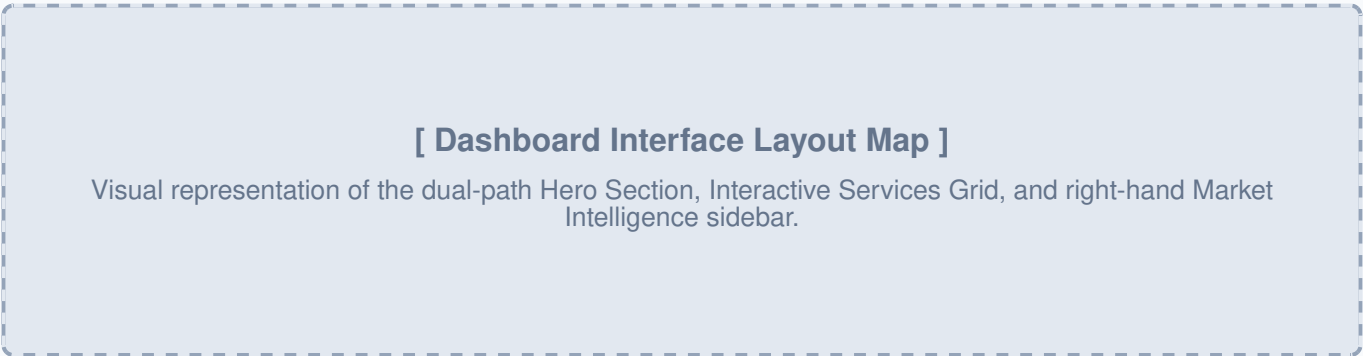

Hero Section: The Dual-Path Funnel

- **"I AM A BUYER" Portal:** A dedicated, streamlined gateway focusing purely on sourcing tools, RFQ generation, and verified supplier discovery.
- **"I AM A SELLER" Portal:** A growth-oriented dashboard aimed at businesses looking to list industrial equipment, track active inquiries, and access global buyer networks.

The Modular Services Grid

Replacing traditional text directories, the main dashboard features a visual, icon-driven matrix that categorizes every operational need:

- **Core Sourcing:** Instant access to Raw Materials, New/Refurbished Machinery, and Industrial Spares.
- **Market Intelligence:** Dedicated modules for live Market Prices and the predictive Market Analyzer.
- **Logistics & Workforce:** Direct portals to Transport & Logistics, Professional Packing Services, Labour Insurance, and a skilled/unskilled Workforce directory.
- **Corporate Administration:** Integrated legal gateways for Business Registration (Firm/LLP) and Trademark Protection Services.

3. Subscription Strategy & Monetization Plans

To ensure rapid user acquisition while maximizing revenue from high-volume trade, the platform utilizes a hybrid monetization structure. This combines accessible tiered subscriptions with competitive, scaled transaction commissions.

Feature / Access Level	Basic (Starter)	Growth (Professional)	Enterprise (Advanced)
Monthly Pricing	₹0 (Free)	₹1,999 / month	₹8,999 / month
Annual Pricing	₹0	₹19,999 / year	₹89,999 / year
Transaction Fee	2.5% – 3.0% per trade	1.5% per trade	0.5% – 1.0% per trade
Chat & Communication	Free / Unlimited	Free / Unlimited	Free / Unlimited

Feature / Access Level	Basic (Starter)	Growth (Professional)	Enterprise (Advanced)
Market Data Depth	Today's Prices Only	7-Day & 30-Day Trends	Full Analyzer & Historical Data
Trust & Visibility	Standard Listing	Verified Badge Directory	Homepage Carousel Priority
Logistics Access	Standard Booking	Preferred Rates	Priority Dispatch
Customer Support	Ticketing System	Priority Queue	Dedicated 24x7 Manager

Add-On Corporate Services (Pay-Per-Use)

Administrative and legal functions are unbundled from standard subscriptions to provide flexibility and transparent pricing:

- **Trademark Registration Services:** Government e-filing fees (ranging from ₹4,500 for MSMEs to ₹9,000 for standard companies) plus tiered professional filing and consultation fees.
- **Business Registration Services:** Case-by-case structural consultation and filing for Firms, LLPs, or Private Limited Companies, quoted based on state stamp duties and authorized capital requirements.
